## About Summer Preview

- If you are interested in discovering the Charleston area, connecting with your new community, and meeting other first year students with similar interests, then “Summer Preview” is a perfect fit and a great way to kick-off the Fall 2011 semester.
- “Summer Preview” brings a select group of incoming first year students together who want to explore their new learning environment and get a head start on their college experience.
- Students will participate in a variety of themed experiences within close proximity to the College of Charleston campus. The focus will be on learning about Charleston and its surroundings, but, we will also talk about the upcoming semester and how to tie in what you are doing in this program and the next few years here.
- Academic and Student Affairs staff, faculty, and student peer mentors will support you during this whole adventure. You will have ample opportunity to ask us about Charleston and your future educational experiences. We will be more than glad to give you our thoughts!
